Dear Sir:

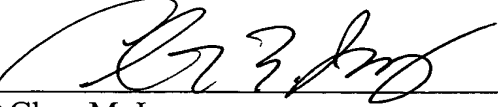

In the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosure dated January 27, 2005, the Examiner indicated that the application failed to comply with the requirements of 37 C.F.R. 1.821-1.825, as the Applicants provided an invalid response to <213> on the computer readable form. A copy of the Notice is enclosed.

In response, Applicants submit herewith a corrected computer readable form (CRF) and copy of the Sequence Listing, which overcomes the Examiner's rejection. Applicants also submit herewith a Statement of Sequence Listing Identity.

It is therefore believed that this represents a full and complete response to the Notice to Comply and the rejection has been overcome. Consideration of the present application on the merits is respectfully requested.
